AT THE
CRN YARDS,
*The fourth
dimension*
DOES EXIST.

Length. Beam. Draft.

Three key dimensions when building a superyacht. But to design one with the owner's heartbeat coursing through her, it takes an extra dimension: the ability to listen. Down the years, our people have all learned to listen to what our owners want and to turn those ideas into breathtaking yachts through a winning blend of expertise, creativity and total commitment.

"The Wave" by **Winch Design** for **Crystal Caviar**. Established in 1995, Crystal Caviar has since become the biggest supplier of crystal sculpture to the superyacht industry. The design of "The Wave" is inspired by Andrew Winch and Marek Landa's shared love of the sea, and through collaboration, they have succeeded in creating something beautifully unique.

WINCH DESIGN LAUNCHED NEW COLLABORATIONS AT THE MONACO YACHT SHOW 2019

In addition to the six landmark yachts presented at yacht show last year, Winch Design celebrated the launch of a number of unique collaborations. With respect and admiration for the natural world at the heart of Winch's DNA - each of the Winch Design collaborations is inspired by the beauty and details found in nature. The design studio showcased for the first time, collections with The Rug Company, Turnstyle Designs, Summit Furniture as well as one-of-a-kind pieces with Thomas Mercer and Crystal Caviar. In addition to the new collections, Winch is also delighted to be showcasing the current range with Foglizzo Leathers.
